

The key to the success is the ability to generate innovative products and capabilities at the forefront of the industry. R&D is a backbone for all products of Choksey Chemicals. "At Choksey Chemicals we are shaping the future development of the existing products through a constant stream of innovations in a range." says Sameer Gurav, Asst. Manager – Marketing at Choksey Chemicals. CCPL's in depth industry knowledge helps address issues specific to client's problems. An unmatched research infrastructure and ability to generate quality products, ensures to serve clientele extraordinarily well. To serve supreme quality products Choksey Chemicals have partnered with D.S. Brown Co.(USA) - for their expansion / modular joint systems and pavement repair products, Bitumat & Co. (Saudi Arabia) - for Bituminous Membranes, Drizoro, (Spain) - for their crystalline waterproofing, decorative coating for swimming pools and other specialized waterproofing systems, Dow Corning, (USA) – for their silicone pavement sealants, Remmers (UK) – for ecofriendly wood coatings & Slipdoctors (USA) – for non-slip floor solutions. Choksey Chemicals is able to pool the knowledge and expertise of the partners in order to offer high-quality, locally attuned solutions to customers.

Choksey Chemicals has multi-location manufacturing facility equipped with state-of-the-art technology. Modern lab consist PC modern colour matching system, tensile testing machine & malvern master size (Laser diffraction particle size analyzers). CCPL's lab is well-equipped to test sealant, concrete admixture, paint, water proofing products & other construction chemicals. Latest manufacturing facilities speed up process of inventory and dispatching. Choksey Chemicals has factories at Taloja and Silvassa.

Choksey Chemicals have already started tapping newer fields of 'Protecting structures'. To add on this, they are soon going to launch a new breed of high performance construction chemicals to supply Indian and global markets. ■
